

PRESS RELEASE

Visit VITEC at SAHA 2026, EKOM Stand 2C-05

VITEC partners with EKOM to expand advanced video solutions across Türkiye

Istanbul, Türkiye – April 24, 2026 – [VITEC](#), a global provider of advanced video encoding, streaming, IPTV, and digital signage solutions, has partnered with EKOM to support business opportunities in Türkiye's defense, aerospace, and advanced technology markets. EKOM specializes in electronic components with an established presence in defense and aerospace supply chains, with the partnership making VITEC's video streaming solutions more accessible to its partners. VITEC will be addressing defense and aerospace clients in the region alongside EKOM at SAHA Expo, 5-9 May, at Istanbul Expo Center.

"EKOM is a well-established and trusted brand in the region, and we're delighted to work with them to build on our existing work in the territory," says Ghassan Dadokh, Senior Business Development Manager, Regional Head of Security & Defense vertical at VITEC. "In turn, we hope to broaden EKOM's offering, and provide field-tested video solutions to defense, aerospace, and other markets. This collaboration reflects the shared commitment of both companies to support sustainable innovation and long-term value creation within Türkiye's strategic industries."

Through this collaboration, EKOM will support local engagement activities by providing access to selected VITEC solutions and technical expertise, enabling Turkish manufacturers and system integrators to efficiently deploy high-performance video technologies within complex operational environments.

VITEC solutions deliver high-quality, low-latency video designed for seamless integration across ISR systems, communication networks, sensors, and mission platforms. The highly interoperable architecture of VITEC technologies enables efficient integration with existing and locally developed systems, supporting Türkiye's objectives related to sovereign capability development and technology independence.

EKOM's established representation network across semiconductor components, electronic modules, and integrated technologies provides strong local support capabilities, enabling Turkish partners to benefit from responsive technical assistance.

About VITEC

VITEC is a market-leading provider of IPTV, Video Streaming and Digital Signage Solutions that help organizations harness the power of video to engage, empower and evolve. VITEC is a pioneer in the design and manufacture of hardware and software for video encoding, decoding, transcoding, archiving and streaming over IP. Our end-to-end video streaming solutions enable customers to

capture TV and video content directly from any source and manage its delivery, as channels or within digital signage screens, to any connected device via an existing network. From corporate, broadcast and venues, to accommodation, government and military, VITEC has global expertise in delivering complex, proAV solutions.

VITEC's award-winning IPTV platform is a powerful suite of services for content management, digital signage, video archiving, and video wall processing. Our encode/decode solutions are 100% hardware based, including PCIe cards with SDK for custom design or OEM for high-performance video systems.

Headquartered in Paris, France, we have a global reach through our offices across the Americas, Europe, Middle East, Africa and Asia Pacific.

Making a difference with green initiatives, VITEC is the first Zero Carbon MPEG company and encourages customers to 'buy GreenPEG' for continued environmental efforts to reduce greenhouse gases.
